

SEWERAGE INSTRUCT NO. 2

Of The Parish of St. Mary
State of Louisiana

Report On Examination Of
Financial Statements

For The Years Ended
September 30, 2000 and 1999

Under provisions of state law, this report is a public document. A copy of the report has been submitted to the parish and other appropriate public officials. The report is made by me and my corporation at the Parish Courthouse office of the Legislative Auditor and, where appropriate, at the office of the parish clerk of court.

Release Date October 1, 2001

INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners
Sewerage District No. 2
Parish of St. Mary
Bayou Vista, Louisiana

We have audited the accompanying financial statements of Sewerage District No. 2, a component unit of the Parish of St. Mary, State of Louisiana, as of and for the years ended September 30, 2000 and 1999, as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and Government Auditing Standards, issued by the Comptroller General of the United States. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the component unit financial statements referred to above present fairly, in all material respects, the financial position of the Sewerage District No. 2 as of September 30, 2000 and 1999, and the results of its operations for the years then ended in conformity with generally accepted accounting principles.

In accordance with Government Auditing Standards, we have also issued our report dated January 26, 2001, on our consideration of Sewerage District No. 2's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants.

Our audit was performed for the purpose of forming an opinion on the financial statements taken as a whole. The schedules and statistical data listed in the table of contents are presented for purposes of additional analysis and are not a required part of the component unit financial statements of Sewerage District No. 2. Such information, except for that portion marked "unaudited", in which we express no opinion, has been subjected to the auditing procedures applied in the audit of the component unit financial statements, and, in our opinion, the information is fairly stated in all material respects in relation to the component unit financial statements taken as a whole.

SEWERAGE DISTRICT NO. 2 OF THE PARISH OF ST. MARY
STATE OF LOUISIANA

Notes to Financial Statements

September 30, 2000

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Sewerage District No. 2 of the Parish of St. Mary, State of Louisiana was incorporated on March 23, 1960, under the authority of the State of Louisiana and the Parish of St. Mary. The District operates under a Board of Commissioners and provides sewerage services to the citizens residing within the boundaries of Sewerage District No. 2. The District is a public corporation and political subdivision of the State and is authorized to incur debt, issue bonds, levy taxes and collect assessments.

The financial statements of Sewerage District No. 2 have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles. Such accounting and reporting procedures also conform to the guides set forth in the *Louisiana Municipal Audit and Accounting Guide* and to the industry audit guide, *Audit of State and Local Governmental Units*, published by the American Institute of Certified Public Accountants.

Reporting Entity:

GASB Statement No. 14, *Governmental Reporting Entity*, establishes criteria for determining which organizations should be included in a governmental financial reporting entity. The focal point for defining the financial reporting entity is the primary government. The Sewerage District No. 2 is a component unit of the St. Mary Parish Council (primary government) and, as such, these financial reports may be included in the CAFR of the Council for the year ended December 31, 2000. The Sewerage District No. 2 has followed GASB-14 guidance to determine that there are no financial statements of other organizations that should be combined with their statements to form a financial reporting entity.

Fund Accounting

The accounting system is organized and operated on a fund basis whereby a separate self-balancing set of accounts is maintained for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.

Proprietary fund types follow GAAP prescribed by the Governmental Accounting Standards Board and all Financial Accounting Standards Board's statements and Interpretations, APB Opinions and ARBs issued, except for those that conflict with or contradict GASB pronouncements.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

PROPRIETARY FUND TYPE:

Enterprise Fund

An Enterprise Fund is used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing services to the general public on a continuing basis be financed or recovered primarily through user charges. The District's Sewerage System is an enterprise fund.

GOVERNMENTAL FUND TYPES

Special Revenue Fund

The special revenue fund is used to account for the proceeds of revenue sources restricted to expenditure for specified purposes. The District's special revenue fund is being used to account for transactions related to an intergovernmental agreement entered into with the St. Mary Parish Council on July 26, 1995. See Note J for additional details.

Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting refers to the timing of the measurements made, regardless of the measurement focus applied.

All governmental funds are accounted for using the modified accrual basis of accounting. Their revenues are recognized when they become measurable and available as not current assets.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Their reported fund equity (i.e., net total assets) is segregated into contributed capital and retained earnings components. Proprietary fund type operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets.

The Sewerage System is accounted for using the accrual basis of accounting. Revenues are recognized when they are earned, and expenses are recognized when they are incurred. An exception to this general rule is (1) principal and interest on general long-term debt which is recognized when due.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Budgets and Budgetary Accounting

The Sewerage District No. 2 follows these procedures in establishing administrative budgetary accounting:

- a. An administrative budget is employed as a management planning and control device during the year for the Proprietary Fund. The forecasted budget is prepared on a basis consistent with generally accepted accounting principles (GAAP), which for the Proprietary Fund is the accrual basis of accounting.
- b. The Proprietary Fund Statement of Income, Expenses, and Changes in Retained Earnings does not reflect budget and actual comparisons of the administrative budget because it is not a legally adopted budget.

Definition of Cash and Cash Equivalents

The District considers all cash (currency and checks on hand and demand deposits with banks and other financial institutions) or highly liquid investments (including restricted assets) with an original maturity of three months or less when purchased to be cash equivalents. The District included open-ended mutual funds as cash and cash equivalents. In accordance with GASBS No. 9, The District presents a cash flow statement that shows the change during the period in unrestricted and restricted cash and cash equivalents.

Investments

State statutes authorize the District to invest in direct obligations of the U.S. Treasury; obligations of any agency of the United States of America, provided the payment of principal and interest of such obligations is fully guaranteed by the United States; obligations of U.S. government instrumentalities which are federally sponsored; direct security repurchase agreements of obligations of the U.S. Treasury or U.S. government instrumentalities; time certificates of deposit or savings accounts; and mutual or trust fund institutions which have underlying investments consisting solely of and limited to securities of the United States government or its agencies.

Investments are stated at cost or amortized cost, which approximates market.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property, Plant and Equipment and Long-Term Liabilities

The accounting and reporting treatment applied to property, plant and equipment and long-term liabilities associated with a fund are determined by its measurement focus. All governmental fund types are accounted for on a spending, "financial flow" measurement focus.

This means that only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of "available spendable resources". Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spending resources" during a period.

All property, plant and equipment are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated property, plant and equipment are valued at their estimated fair value on the date donated.

Long-term liabilities expected to be financed from governmental fund types are accounted for in the General Long-Term Debt Account Group, not in the governmental funds. This account group is not a "fund". It is concerned only with the measurement of financial position. It is not involved with measurement of results of operations.

Because of their spending measurement focus, expenditure recognition for governmental fund types is limited to exclude amounts represented by non-current liabilities. Since they do not affect net-current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities. They are instead reported as liabilities in the General Long-Term Debt Account Group.

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and liabilities (whether current or noncurrent) associated with their activity are included on their balance sheets. Their report fund equity (net total assets) is segregated into contributed capital and retained earnings components.

Depreciation is provided in the enterprise fund in amounts sufficient to retire the cost of the depreciable assets, to operations over their estimated service lives on the straight-line basis. The service lives by type of asset are as follows:

Storage Building	33 Years
Distribution System	10-25 Years
Equipment	3-5 Years

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property, Plant and Equipment and Long-Term Liabilities (Continued)

Certain assets have been constructed or acquired substantially with contributions in aid of construction. Net income includes depreciation on assets acquired from contributions; however, the depreciation applicable to assets acquired from contribution is transferred to the related contribution account rather than retained earnings.

Certain engineering services rendered for the Regional Sewerage Facilities to serve Wards 5 and 8 in St. Mary Parish were funded by St. Mary Parish Council contributions, the sale of bonds and Federal grants from the Environmental Protection Agency which were administered by the St. Mary Parish Council. The construction costs of the Regional Sewerage Facilities are being accounted for through an intergovernmental agreement between St. Mary Parish Council, the Town of Patterson and the Town of Berwick, as maintained by the Joint Sewer Commission Wards 5 and 8. Any amounts that were contributed by St. Mary Parish Council for Sewerage District No. 2's share of construction costs during the project are recorded by the St. Mary Parish Council.

Bad Debts

The Enterprise Fund contains no allowance for uncollectable accounts receivables which is a generally accepted accounting principle. Uncollectable receivables are charged off at the time information becomes available which would indicate the uncollectability of the particular receivable. The failure to utilize the allowance method to account for bad debts is not material to the financial statements.

Total Column on Combined Balance Sheet

The total column on the Combined Balance Sheet is captioned Memorandum Only to indicate it is presented only to facilitate financial analysis. Data in this column does not present financial position, results of operations, or changes in financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

NOTE B - CASH AND INTEREST BEARING DEPOSITS

The Sewerage District No. 2 may invest in time deposits or certificate of deposits of state banks or savings and loan associations or savings banks organized under Louisiana law and national banks having principle offices in Louisiana. State law requires that deposits be fully collateralized at all times. Acceptable collateralization includes the \$100,000 FDIC/PSLIC insurance and the market value of securities purchased and pledged. Obligations of the United States, the State of Louisiana and certain political subdivisions are allowed as security for deposits. Obligations furnished as security must be held by the District or with an unaffiliated bank or trust company for the account of the District.

NOTE B - CASH AND INTEREST BEARING DEPOSITS (Continued)

The District's cash and investments are categorized to give an indication of the level of risk assumed by the District at September 30, 2000:

Category 1 - Insured or collateralized with securities held by the District or by its agent in the District's name.

Category 2 - Collateralized with securities held by the pledging financial institution's trust department or agent in the District's name.

Category 3 - Uncollateralized or securities uninsured or unregistered and held by the counter party (this includes GNMA Pool investments and mutual fund shares held in "broker-only" form by brokerage firms)

Cash and investments (including restricted assets) stated at cost consist of the following:

Checking and money market accounts	\$222,615
Certificates of deposit	518,428
US Treasury Bill	<u>107,877</u>
Total cash and investments	<u>\$848,920</u>

Cash and investments categorized by level of risk are:

	<u>Cost</u>	<u>Market Value</u>
Amounts insured by the FDIC or SIPC or collateralized with securities held by the District in its name	\$824,815	\$824,815
Amounts collateralized with securities held by the pledging financial institution's trust department in the District's name	24,105	24,105
Uncollateralized, uninsured or unregistered	<u>—</u>	<u>—</u>
Total cash and investments	<u>\$848,920</u>	<u>\$848,920</u>

NOTE C - CHANGES IN PROPERTY, PLANT AND EQUIPMENT

Changes in the Enterprise Fund property, plant and equipment for the year and accumulated depreciation are presented below:

Property	Balance 9/30/99	Additions	Transfers/ Disposals	Balance 9/30/00
Land, Right of ways	\$ 46,683	\$ --	\$ --	\$ 46,683
Storage building	2,325	--	--	2,325
Distribution system	3,049,818	50,999	(7,380)	3,049,989
Equipment	<u>1,344</u>	<u>--</u>	<u>--</u>	<u>1,344</u>
Total Cost	\$3,096,364	\$ 50,999	\$ (7,380)	\$3,099,943
Less accumulated depreciation at year end	<u>1,094,842</u>			<u>1,092,444</u>
Net property, plant and equipment	<u>\$1,961,521</u>			<u>\$1,897,499</u>

NOTE D - CHANGE IN ACCOUNTING ESTIMATE

Based on actual experience of repairs and replacements of sewer lines and consulting with the District's engineer, a change in the estimated useful life of sewer lines constructed in 1962 and 1966 was made. The estimated useful life was reduced from 75 years to 45 years. This change reduced income before extraordinary items and net income by \$38,502 for the year ending September 30, 1999. Beginning September 30, 2000 this change will also reduce income before extraordinary items and net income by \$38,502 for the next eight years and by \$15,406 for the following twenty-six years.

NOTE E - CONTRIBUTED CAPITAL

This District has received contributions from bonds and certificates, assessments and local sources accounted for in the Enterprise Fund for the purpose of acquiring or constructing capital facilities.

Retirement of contributions are the equivalent of the depreciation charge against the assets involved. The additions and major sources of contributed capital and other changes are as follows:

	9/30/00	9/30/99
Contributed capital at beginning of year	\$1,757,635	\$1,857,818
Contributions		
Federal EPA grant	--	--
Property assessments	--	--
St. Mary Parish Council	--	--
Other municipalities	--	--
Retirements		
Depreciation	<u>(100,182)</u>	<u>(100,182)</u>
Contributed capital at end of year	<u>\$1,657,453</u>	<u>\$1,757,635</u>

NOTE F - DUE TO AND FROM OTHER GOVERNMENTAL UNITS

Amounts due from other governmental units consisted of the following:

	9-30-00	9-30-99
Town of Berwick, LA	\$ --	\$ 7,136
St. Mary Waterworks District No. 3- (Inter-governmental service - Sewerage fees collected)	43,872	43,829
St. Mary Parish Council (Inter-governmental agreement)	<u>38,271</u>	<u>---</u>
Total	<u>\$ 82,143</u>	<u>\$ 51,965</u>

Amounts due to other governmental units consisted of the following:

	9-30-00	9-30-99
Joint Sewer Commission Wards 5 and 8- (Sewerage treatment fees)	\$11,436	\$13,577
Total	<u>\$11,436</u>	<u>\$13,577</u>

NOTE G - RELATED PARTY TRANSACTIONS

Commissioners are compensated for their attendance at monthly and special meetings. The payments amounted to \$3,240 and \$3,480 for the years ended September 30, 2000 and 1999, respectively.

NOTE H - PENDING LITIGATION

Based on information available, potential claims against the District not covered by insurance would not materially affect the financial statements of the District.

NOTE I - AD VALOREM TAXES AND MAINTENANCE MILLAGE ASSESSMENT

Ad valorem taxes attach as an enforceable lien on property as of January 1 of each year. Taxes are levied by the District in September or October and are actually billed to taxpayers in November or December. Billed taxes become delinquent on January 1 of the following year. The St. Mary Parish Sheriff bills and collects property taxes for the District using the assessed values determined by the tax assessor of St. Mary Parish. District property tax revenues are budgeted in the year billed.

For the year ended September 30, 2000, 10.0 mills were authorized and dedicated as follows:

Sewerage system maintenance and improvements	10.0 mills
--	------------

On July 28, 1996, a proposition to levy a ten mills tax on all property subject to taxation in said Sewerage District No. 2 passed. The tax levy will be for a period of ten years beginning with the year 1996, ending with the year 2005, for the purpose of constructing, maintaining, improving, and operating the sewers and sewer disposal works for the District.

NOTE J - INTERGOVERNMENTAL AGREEMENT - CONTINGENCIES

The St. Mary Parish Council requested that Sewerage District No. 2 develop a funding mechanism to assist in the payment of the balance owed on the \$3,850,000 of public improvement bonds which were sold in 1983 for the purpose of financing the unincorporated areas portion of the construction and acquisition of sewerage facilities in Wards 5 and 8. These bonds had been refinanced from time to time and are the legal obligation of the Council. This request was made due to short falls in the original plan to fund the bond issue.

On July 28, 1999, Sewerage District No. 2 entered into an intergovernmental agreement in conjunction with Sewerage District No. 8 and the St. Mary Parish Council, whereby the sewerage districts will be obligated to pay the remaining balance of the bond issue, \$4,349,016.75 which includes principle and interest. The balance due will be allocated \$3,411,857.68 to Sewerage District No. 2 and \$1,107,159.07 to Sewerage District No. 8. The sewerage districts will each receive for the calendar years through December 1, 2004 their respective percentage of the 3.0% sales tax applicable to the sewer area that presently is collected by the Parish Council and used to fund the debt service on the sewerage bonds. The sewerage districts covenant that they shall adjust millages and/or user fees as they deem necessary and appropriate for the retirement of the said bonds in accordance with the bond payment schedules. The District is accounting for the 3.0% sales tax received, transfers from the enterprise fund, and payments made to the St. Mary Parish Council for bond payments in a special revenue fund.

NOTE J - INTERGOVERNMENTAL AGREEMENT - CONTINGENCIES (Continued)

The St. Mary Parish Council is the owner of an undivided 45.20% of the regional sewer facilities pursuant to the Local Services Agreement executed May 1983. In consideration of the foregoing, the St. Mary Parish Council does bargain, sell, transfer, assign and set over unto the sewerage districts all right, title and interest of the St. Mary Parish Council in and to that portion of the regional sewerage treatment facilities. The parish interest in the facilities will be allocated 73.3% to Sewerage District No. 2 and 26.7% to Sewerage District No. 8 upon fulfillment of all bond payment obligations.

The required transfers to the St. Mary Parish Council to fund the bond principle and interest payments now attributable to Sewerage District No. 2 is as follows:

Payment Date	Principle	Interest Due	Total Annual Debt Service
June 1, 1996	\$ --	\$ 69,408.40	
December 1, 1996	240,886.51	69,408.40	\$ 310,294.91
June 1, 1997	--	61,137.00	
December 1, 1997	238,405.55	61,137.00	300,542.55
June 1, 1998	--	51,998.65	
December 1, 1998	273,734.67	51,998.65	325,733.32
June 1, 1999	--	46,250.21	
December 1, 1999	288,873.96	46,250.21	335,124.17
June 1, 2000	--	39,795.56	
December 1, 2000	297,823.34	39,795.56	337,618.90
June 1, 2001	--	33,945.62	
December 1, 2001	313,132.48	33,945.62	347,078.10
June 1, 2002	--	28,508.25	
December 1, 2002	328,481.60	28,508.25	356,989.85
June 1, 2003	--	17,542.57	
December 1, 2003	343,818.76	17,542.57	361,361.33
June 1, 2004	--	9,033.25	
December 1, 2004	<u>360,328.79</u>	<u>9,033.25</u>	<u>369,362.04</u>
Total Required Transfers	\$2,704,494.64	\$ 707,359.60	\$3,411,854.24
less amounts paid	<u>(1,059,900.69)</u>	<u>(697,504.08)</u>	<u>(1,757,404.77)</u>
Total Remaining Transfers	<u>\$1,644,593.95</u>	<u>\$ 209,855.52</u>	<u>\$1,854,449.47</u>

NOTE J - INTERGOVERNMENTAL AGREEMENT - CONTINGENCIES (Continued)

Sewerage District No. 2 anticipates approximately \$364,000 annually to be collected as its portion of the 3/4% sales tax for funding the required transfers for debt service. The remaining shortfall of approximately \$215,000 annually will be funded by additional revenues from a rate increase to the sewerage customers and an increase in the property tax millage on the assessed property within the District.

The District has made the following operating transfers to the special revenue fund to provide funds for payment to the St. Mary Parish Council in accordance with the Intergovernmental agreement:

Year ending September 30, 1996	\$ 90,000
Year ending September 30, 1997	91,000
Year ending September 30, 1998	151,300
Year ending September 30, 1999	102,907
Year ending September 30, 2000	<u>159,262</u>
TOTAL	<u>\$594,469</u>

NOTE K - CONTINGENCIES AND UNCERTAINTIES

As of September 30, 2000, the St. Mary Parish Council has made all required bond obligation payments on the public improvement bonds aforementioned.

NOTE L - SUBSEQUENT EVENT

On October 27, 2000, the St. Mary Parish Council passed Ordinance 1474, creating St. Mary Parish Water and Sewer Commission No. 2, State of Louisiana. In accordance with the provisions of this ordinance all operations and sewerage facilities of Sewerage District No. 2 will be transferred to the jurisdiction of the commission. All water, sewer, and sewage disposal facilities heretofore owned and/or operated by Waterworks District No. 2 and Sewerage District No. 2 as such facilities now exist, shall be operated, maintained, improved, extended and/or disposed of by the Commission. This ordinance shall become effective on January 1, 2001.

**REPORT ON COMPLIANCE AND ON INTERNAL CONTROL
OVER FINANCIAL REPORTING BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Commissioners
Sewerage District No. 2
Parish of St. Mary
Bayou Vista, Louisiana

We have audited the financial statements of Sewerage District No. 2, as of and for the years ended September 30, 2000 and 1999, and have issued our report thereon dated January 26, 2001. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether Sewerage District No. 2's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under Government Auditing Standards. There were no prior year findings or management letter comments.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Sewerage District No. 2's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide assurance on the internal control over financial reporting. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be reportable conditions.

Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect Sewerage District No. 2's ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements.

Our examination disclosed that there is very little segregation of duties within the District's accounting function, particularly in the areas of cash receipts, bank reconciliations, cash disbursements, general ledger and journal entries. This weakness is due to the fact that the District employs only two persons in the bookkeeping function. Due to the lack of segregation of duties, possible errors or irregularities could occur in the accounting records and not be detected. Understandably, due to the limited number of accounting personnel, the most ideal system of internal control or the most desirable accounting system may not be practicable. Also, the cost of additional employees might exceed any benefits gained. The management of the District is well aware of the loss of internal control that results with their limited staff and are constantly on watch for any problems that would arise.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe some of the reportable conditions described above is a material weakness.

This report is intended solely for the information and use of the Board of Commissioners (management), St. Mary Parish Council, and the Louisiana Legislative Auditor and is not intended to be and should not be used by anyone other than those specified parties.

William and Carpenter
